### About MyDocuments.com, Inc.

MyDocuments.com, Inc. (formerley ARvee Systems) is a developer of scalable document management software. Its product, the Millenium 10, allows users to work across all their applications at once and create new documents incorporating stored text, graphics, audio and video. Flexible indexing options allow documents to be indexed by keying in index information during the time they enter into Millennium, or at a later date. Administrators or users can simply choose to OCR an imaged document to convert text for searching. Native documents such as Word, Excel, PDF's, emails, etc. automatically get processed though Millennium's powerful Indexing Server which records all data contained in that document for searching.
