**nGeneYes Named Millennium 10 – 2008 Integrator of the Year
by Convergent EDM, Inc.**

PHOENIX, AZ May 18, 2009 – nGeneYes Inc., a Long Island, NY based provider of business consulting and specialized software development, has received Convergent EDM Inc.'s Millennium 10 – 2008 Integrator of the Year Award. nGeneYes is a certified Gold Solutions Provider for the Millennium 10 Electronic Document Imaging and Management (EDIM) Software Suite product line. "Over the past seven years, nGeneYes has used their extensive business software experience and diverse problem solving capabilities in their Millennium 10 Product Suite based implementations," said Daniel Schulz, President and CEO, who announced the award at the firm's annual meeting. Michael P. Gencarelli, President of nGeneYes, accepted the award on the firm's behalf.

nGeneYes earned the Integrator of the Year award by defining, delivering and supporting business solutions that not only integrate all areas of the Millennium 10 Product Suite, but also integrated Millennium with existing client in-house, legacy, ERP and CRM systems. The consulting team at nGeneYes has installed multiple large scale client solutions with the Millennium 10 Suite. Their comprehensively engineered solutions have realized client gains in productivity, garnered significant and immediate cost savings, enhanced disaster recovery procedures, addressed regulatory/compliance needs, and strengthened their client's growth and management strategies. EDIM solutions are a strategic focus of nGeneYes' corporate offering and has become a cornerstone of their success.

Founded in 2002, nGeneYes combines both technical and business skills to help its clients solve mission-critical technology problems. Among numerous successes, the firm has recently developed several web-based applications that have greatly improved information flow and access for its clients, saving millions in operating costs.
